

EXPLORA

DESIGNING AND APP DEVELOPMENT

Overview:

Explora is a dynamic student-led startup specializing in creative design solutions and app development. Focused on innovation and functionality, Explora bridges the gap between technology and design by crafting user-friendly mobile and web applications tailored to academic, entrepreneurial, and institutional needs. The startup empowers students by providing a Student's lab to design the posters, invitations and notepad front pages.

Core Focus Areas:

- Mobile and web app development
- Customized digital designs for institutional and business use

Faculty-in-Charge:

Mrs. S. Rajasoorya, Assistant Professor, Department of Computer Application

Ms. T. Petchiammal, Assistant Professor, Department of Microbiology
