About the College

The **Standard Fireworks Rajaratnam College for Women** exerts strenuous efforts in uplifting and upgrading the society by educating women during the past five decades and excels as a pioneer in improving the future prospects of rural women by equipping them intellectually with greater knowledge and employable skills so as to liberate themselves from socio, economic and cultural constraints by confronting the challenges of everyday life. Our institution marches with pride at the significant milestones established along the way, ever since its inception in 1968.

The National Accreditation & Assessment Council of Bangalore, acknowledged our institution with Five Star Status in 2002 and the advent of autonomy has given us the freedom to innovate, improve and enhance our academic caliber in 2005. The college was also bestowed with the unique honour of "College with Potential for Excellence by UGC" in 2011 and 2017 respectively. Our institution has shown growth and progress in academics, co-curricular and extra-curricular activities ensuring the inclusive and equitable quality education of women.

About the Department

The **PG and Research Department of Commerce** has completed 42 years of existence proving its excellence in the field of commerce and imprinting its mark of success in promoting girl's education. Though, the Department of Commerce offers the most demanded programme options for Under Graduation, Post Graduation, and Certificate Courses are a great way to equip the students leaving the school after higher education in the short span of one year and make them competitive in the contemporary business world.

The PG and Research Department of Commerce is exemplary bestowed with a very strong team of dedicated and experienced academicians. Seven of them have Doctoral Degrees. Six are qualified with NET/SET. Three faculties have completed Minor Research Projects funded by University Grants Commission. Our Department collaborates with various industries and institutions for the diverse programmes being offered by signing Memorandum of Understanding to equip the rural women for the competitive job market. The success story of the Department can be witnessed with

the facts that our department, being the forerunner in the college has produced 25 Doctorates and was granted funds by the UGC for Post Graduation in Banking Technology and Two Career Oriented Programmes under the scheme of Innovative Programmes.

About the Programme

Cyber Security is a discipline that covers measures to protect internet-connected devices and services against phishing schemes, identify theft and data breaches by hackers and cyberpunks. According to Cybercrime Magazine, cybercrime will cost the world \$10.5 trillion annually by 2025. Furthermore, global cybercrime costs are predicted to rise by almost 15 per cent yearly over the next four years. These breaches have a strong financial impact on the companies and also loss of the trust of customers. Hence, awareness on cyber security measures is very vital to protect business and individuals from cyber criminals.
